

Redi-Data can take your consumer files and match to other sources to append or suppress information. All input files are standardized before being processed to maximize the matches.

Below is the standard matching logic used by our data professionals based on input file and level of matching required for the job. Redi-Data will review customer files and requirements and can provide custom matching based on clients' needs.

REDI-DATA STANDARD MATCH STEPS
Exact Match on Full Name, Primary, Secondary Address, City, State, Zip
Exact Match on Full Name, Primary, Address, City, State, Zip
